HEALTHCARE EXPO
GS1 Healthcare User Group Australasia Meeting
17th September 2014

4 Solutions

4Solutions is at the forefront of innovation in e-commerce solutions with experience in supply chain integration, outsourced B2B solutions, trading partner enablement programs, business analysis and EDI consulting. Health subscribers include large multi-national and local pharmaceutical manufacturers and wholesalers. 4Solutions now hosts EDI2web, a web based tool designed for smaller suppliers.

Authenticateit

Built around the strong foundations of GS1 EPCIS global standards, the Authenticateit platform is an advanced track and trace solution, operated by brands via the back-end of the Authenticateit platform. This enables consumers to check product authenticity and recall status using the free Authenticateit smartphone app.

Avery Dennison

The Avery Dennison application and technology solutions are an integral part of products used in every major market and industry. These solutions enable suppliers, wholesalers or distributors to trade with Healthcare buyers and partners using the GS1 System. They also support GS1 best practices including identification of trade items, shipments, automatic data collection and electronic messaging.
B2BE

B2BE is an Australian company with 17 offices in 13 countries and is one of the largest EDI service providers across Australasia. B2BE has worked with the Healthcare sector in Australia and New Zealand for many years, providing supply chain and accounts payable automation solutions including EDI, business-to-business e-Solutions and GS1net (NPC/ DHBNC).

BCDS Solutions

BCDS Group are an Australian based company that cater for worldwide Auto-ID including RFID Solutions since 1982. We are an essential component of the asset management, risk and compliance assurance and automated control systems in industries such as in Healthcare, Manufacturing, Industrial Supply Chains, Mining, Retail and Government.

Bizcaps Software

In support of NPC suppliers, buyers, and ongoing collaboration with the National E-Health Transition Authority (NEHTA) and GS1 Australia, Bizcaps Software enjoys a unique position in understanding the requirements and challenges in realising eHealth supply chain reform. Suppliers are increasingly looking to Bizcaps Software to facilitate data collection and system integration.

GETINGE

Getinge

Getinge is every hospital’s preferred partner and supplier of equipment and services for cleaning, disinfection and sterilisation of instruments. Our innovative solutions provide the highest quality and safety at the lowest cost. T-DOC 2000 is the top-of-the-line sterile supply management and traceability solution from Getinge.

GXS

GXS is a leading B2B integration services provider and operates the world’s largest cloud integration. Now an OpenText company, OpenText GXS is part of the OpenText Information Exchange Suite, which integrates messaging and B2B Integration services such as EDI, secure mail, large file transfer, fax and notifications all within a single platform – enabling any transaction.
