Contact Type

Code	Description
ADMINISTRATIVE	This code specifies that this contact is of the type "Administrative".
CONSUMER_SUPPORT	The party which provides product support to the end user of a trade item or a service.
CUSTOMER_SUPPORT	The party which provides product support to the trading partner party to which merchandise is sold.
EMERGENCY	A contact where information is available on how to proceed in case of an accident occurring while working with the dangerous substance.
FINANCIAL	This code specifies that this contact is of the type "Financial".
GDS_CONTACT	Value not stated.
LICENSEE_REGISTRAR	The party having legal responsibility for the product in the target market. This party is responsible for licensing and regulations within the target market and can be the manufacturer, importer, sales agent or broker.
LOGISTICS	This code specifies that this contact is of the type "Logistics".
MANAGEMENT	This code specifies that this contact is of the type "Management".
OPERATIONS	This code specifies that this contact is of the type "Operations".
OTHER	This code specifies that this contact is of the type "Other".
PACKAGING_ENGINEERING	Value not stated.
PURCHASING	This code specifies that this contact is of the type "Purchasing".
RECALL_SUPPORT	Value not stated.
TRANSPORT	This code specifies that this contact is of the type "Transport".
UNSPECIFIED	Value not stated.

Packaging Function

Code	Description
ANTI_TAMPERING	A methodology used to hinder, or deter unauthorized access to a device.
ANTISEPTIC	The process by which a sterile (aseptic) product (typically food or pharmaceutical) is packaged in a sterile container in a way which maintains sterility.
COATED	Covered with a material (paraffin, wax) that protects the product or packaging.
COMPRESSED	Content has been pressed together to the maximum possible way.
DISPENSER	Not Available.
GIFT_WRAPPED	Packaging is wrapped in a decorative way for the purposes of the consumer giving it as a gift.
ISOTHERMIC	Thermal carry container designed for the carriage of temperature controlled goods such as vaccines, pharmaceuticals, and medicines.
MODIFIED_ATMOSPHERE	The practice of modifying the composition of the internal atmosphere of a package, (commonly food packages, and drugs) in order to improve the shelf life.
OXYGEN_INFUSED	A barrier packaging material for an infusion solution, i.e., oxygen.
PEEL_OFF	A section of the packaging can be detached with ease in order to have access to the content or product, e.g. peel-off Lids used for packing Milk, Coffee and Cacao Powder.
PINPACK	The package is equipped to be hung up on a hook".
PROTECTED	Functionality to keep from being damaged, attacked, stolen, or injured; guard.
REINFORCED	A component is added to a container for a particular application to lend additional support under severe applications.
SIFT_PROOF	Packaging is designed to prevent leaking of the content specially when it is on powdered or liquid state.
TAMPER_EVIDENT	The packaging is designed to show when there has been some interference with the original sealing or configuration of the packaging.
WATER_RESISTANT	Coated with materials that make the packaging impervious to the effects of water.

Packaging Material Code

Code	Description	Code	Description
01	Aluminum	67	Multiple – wall Paper (2 or more walls)
03	Hard Wood	70	Multiple – wall Paper (3 or more walls)
04	As Specified by the DOT	71	Not Otherwise Specified

Code	Description	Code	Description
05	Soft Wood	72	Paper – VCI. Water-resistant paper that is treated by the addition of materials to provide resistance to damage or deterioration by water in liquid form.
07	Burlap	73	Other than Glass
10	Chemically Hardened Fibre	74	Other than Metal or Plastic Tubes, or Glass
13	Cloth	75	Plastic – Vacuum Formed. Formed by heating a plastic sheet and drawing it against the mold surface by evacuating the air between the sheet and the mold.
16	Cloth Top	76	Paper
19	Cloth or Fabric	77	Plastic – Structural Foam. Manufacturing containers and shipping devices by mixing plastic resins with a foaming agent, heating it, and injecting the mix into a two-piece machined aluminum mold.
22	Compressed	78	Plastic – Injection Molded. Formed by melting the material and then forcing it under pressure into a cavity of a closed mold.
25	Corrugated or Solid	79	Plastic
28	Double – wall Paper	80	Polyethylene Lined
31	Fibre	81	Plastic – Virgin. Plastic in the form of pellets, granules, powder, floc, or liquid that has not been subjected to use or processing other than for its initial manufacture.
34	Fibre (Paperboard)	82	Pulpboard
37	Fiberboard	83	Plastic – Regrind. A plastic prepared from discarded articles that have been reprocessed, often changing some of its original properties.
40	Fiberboard Metal	84	Polystyrene. A polymer prepared by the polymerization of styrene as the sole monomer.
43	Glass	85	Rubber
46	In Inner Containers	86	Foam. In packaging, a cushioning material used to reduce shock and vibration or abrasion.
48	Wire/Cord. Something that binds, ties, or encircles the package/container to secure and maintain unit integrity.	88	Rubber and Fabric
49	Insulated	89	Special
50	Steel – Vinyl Coated. Steel that has been covered with a plastic material.	90	Standard
51	Wire Mesh	91	Stainless Steel
52	Iron or Steel	92	Tubes, Metal or Plastic
53	Jumbo	94	Wood
54	Special Jumbo	95	Single Wall Corrugated Board. The structure formed by one corrugated inner member between two flat facings; also known as double face.

Code	Description	Code	Description
55	Lead	96	Double Wall Corrugated Board. The structure formed by three flat facings and two intermediate corrugated members.
58	Metal	97	Triple Wall Corrugated Board. The structure formed by four flat facings and three intermediate corrugated members.
59	Metal Cans	98	Ceramic or Stoneware
61	Moisture Resistant		
64	Molded Plastic

Preparation State

Code
PREPARED
UNPREPARED

Preparation Type

Code	Description
BAKING	Cooking food in an oven by dry heat applied evenly throughout the oven.
BARBECUING	Method of cooking meat with the heat and hot gasses of a fire.
BLANCHING	Food preparation wherein the food substance is rapidly plunged into boiling water and then removed after a brief, timed interval and then plunged into iced water or placed under cold running water.
BLIND_BAKING	Baking a pie crust or other pastry without the filling.
BOILING	Cooking food in boiling water, or other water-based liquid such as stock or milk.
BRAISING	Cooking with "moist heat", typically in a covered pot with a small amount of liquid.
BROILING	Cooking food with high heat with the heat applied directly to the food, most commonly from above. Heat transfer to the food is primarily via radiant heat.
DEEP_FRYING	Cooking method whereby food is submerged in hot oil or fat.
DOUBLE_STEAMING	Cooking technique to prepare delicate food such as bird nests, shark fins etc. The food is covered with water and put in a covered ceramic jar.
FRYING	Cooking of food in fat.
GRIDDLE_FRYING	Form of cooking where the food is fried with its own fat.
GRILLING	Form of cooking that involves direct heat. The definition varies widely by region and culture.
MICROWAVING	Cooking food by employing microwave radiation.
PAN_FRYING	Form of frying characterized by the use of less cooking oil than deep frying.
POACHING	Cooking food by gently simmering food in liquid, generally water, stock or wine.
PRESSURE_COOKING	Method of cooking in a sealed vessel that does not permit air or liquids to escape below a preset pressure.
PRESSURE_FRYING	Meat and cooking oil are brought to high temperatures while pressure is held high enough that the water within is prevented from boiling off.
READY_TO_EAT	Besides unpacking no additional preparation required.
RECONSTITUTING	Restore a dry or concentrated food to its original strength or consistency by adding water.
ROASTING	Cooking method that utilizes dry heat, whether an open flame, oven, or other heat source.
ROTISSERIE	Style of roasting where meat is skewered on a spit and revolves over a flame.
SAUTÉING	Cooking food using a small amount of fat in a shallow pan over relatively high heat.

SEARING	Technique used in grilling, roasting, braising, sautéing, etc. That cooks the surface of the food (usually meat, poultry or fish) at high temperature so that a caramelized crust forms.
SIMMERING	Cook food by heating it in water kept just below the boiling point (same as coddling).
SMOKING	Process of curing, cooking, or seasoning food by exposing it for long periods of time to the smoke from a wood fire.
STEAMING	Cooking by first boiling the water so it will evaporate into steam, then the steam will carry heat to the food, thus achieving heating the food.
STEWING	Preparing meat cut into smaller pieces or cubes by simmering it in liquid, usually together with vegetables.
STIR_FRYING	Chinese cooking technique used because of its fast cooking speed.

Price Comparison Content Type

Code	Description
DRAINED_WEIGHT	The weight of a product when all liquids used in the packaging of the product have been removed.
INCLUDING_ADDITIVES	Specified using MLT or FZ as unitOfMeasure (price per litre/pint drink including additives other than water).
MILLILITRES_EXCLUDING_DEPOSIT	Specified using MLT as unitOfMeasure (price per litre, not including the package deposit charge)
PER_CUBIC_METRE	The Price Comparison Content specified may be used to calculate the price per cubic metre.
PER_DOSE	Specified using PCE as unit of measure.
PER_KILOGRAM	Specified using GRM as unitOfMeasure (price per kilogram).
PER_LITRE	Specified using MLT as unitOfMeasure (price per litre).
PER_LOAD	Specified using PCE as unit of measure (price per load - used for washing up powder).
PER_METRE	Specified using MMT as unitOfMeasure
PER_PIECE	Specified using PCE as unitOfMeasure (price per piece)
PER_PINT	Specified using FZ as unitOfMeasure (price per pint)
PER_POUND	Specified using OZ as unitOfMeasure (price per pound)
PER_SQUARE_METRE	The Price Comparison Content specified may be used to calculate the price per square metre.
PER_WASH	Specified using PCE as unitOfMeasure (price per wash – used for washing detergent).
PER_YARD	Specified using IN as unitOfMeasure (price per yard)
READY_TO_DRINK	Specified using MLT or FZ as unitOfMeasure (price per litre/pint diluted drink).
READY_TO_EAT	Specified using GRM or OZ as unitOfMeasure (price per kilogram/pound prepared food).

Returned Goods Policy

Code	Description
CALL_FOR_AUTHORIZATION	The Retailer must call you to obtain authorization to dispose of defective, damaged, or otherwise non-saleable goods.
DESTROY_FOR_CREDIT	The Retailer documents, and subsequently destroys, the defective, damaged, or otherwise non-saleable goods. You issue a credit for the material to the Retailer.
DESTROY_NO_CREDIT	The Retailer documents, and subsequently destroys, the defective, damaged, or otherwise non-saleable goods.
HOLD_FOR_INSPECTION	The Retailer holds the defective, damaged, or otherwise non-saleable goods for inspection and verification by you. You then issue a credit for the material to the Retailer.
RETURN_FOR_CREDIT	The Retailer returns the defective, damaged, or otherwise non-saleable goods to you. You then issue a credit for the material to the Retailer.
FULL	The Retailer can return the full shipment of received merchandise.
PARTIAL	The Retailer can return some, but not all, of the received merchandise in a shipment.

Tax Agency Code

Code	Description
ATO	Australian Tax Office
IRD	New Zealand Inland Revenue Department

Tax Exempt Part Role (Party Role List)

Code	Description
BILL_TO	Party which receives goods and invoice.
BROKER_AGENT	A person who buys or sells for another entity without having title to the property.
BUYER	Party to which merchandise are sold.
CARRIER	A company, which physically transports goods from one place to another.
CONSUMER	The end user of a trade item or a service.
CORPORATE_IDENTITY	Identity of the party to whom all other parties of the same commercial organization are linked.
DELIVERY_PARTY	Party to which goods are delivered.
DISTRIBUTOR	Party distributing goods, financial payments or documents.
FACTOR	A party that purchases financial receiving instruments e.g. invoices
FREIGHT_FORWARDER	A person or firm that arranges for a pick up or deliver goods by a carrier on instructions of a shipper or consignee from or to a point by various necessary conveyances and common carriers.
INFORMATION_PROVIDER	The Party providing the information contained in the document.
INSURER	A person or company offering insurance policies for premiums.
INVOICEE	Party issuing an invoice.
ISSUER_OF_INVOICE	Party which issues an invoice.
LOGISTICS_SERVICE_PROVIDE R	An umbrella term for an entity, which provides a combination of many different logistics services for another entity.
MANUFACTURING_PLANT	A physical location consisting of one or more buildings with facilities for manufacturing.
MARK_FOR	The ultimate destination of a unit load or transport package of goods where the Ship-To is a different location.
MESSAGE_FROM	Party where the message comes from.

MESSAGE_RECIPIENT	Party receiving the message.
OPERATING_DIVISION	An entity that is part of another entity. For example, a Regional Marketing Office. Operating Divisions may have multiple days and times of operation.
OPERATOR	A person or persons who own or operate a business establishment, which services consumers directly. For example a restaurant owner as part of a chain or an independent operation.
PARTY_TO_RECEIVE_COMMERCIAL_INVOICE	Party to whom payment for a commercial invoice or bill should be remitted.
PAYEE	Party, which receives payment.
PAYER	Party which initiates payment.
PUBLIC_WAREHOUSE	A building, or a part of one, where storage space is offered to other companies for compensation (fee), for the storage of their goods, merchandise, etc.
REMIT_TO	Party to whom funds are directed for payment of a commercial invoice.
SELLER	Party which sells products or services to a buyer.
SHIP_FROM	Party from where goods will be or have been shipped.
SHIP_TO	Party which receives goods and invoices.
STORE	A physical entity that sells trade items to a consumer.
SUPPLIER	A party that provides goods or services.
WAREHOUSE_AND_OR_DEPOT	Industrial department of a company equipped with appropriate equipment and fittings in which goods are stored in appropriate conditions.

Distribution Method Code

Code	Description
CD	Cross Dock: The supplier picks and packs the goods per retail store location and delivers the goods to the retailers' distribution centre for transfer across the loading dock to local delivery vehicles. In this case the goods are not stored in the distribution centre.
D2C	Direct to Consumer: The supplier delivers the goods direct to the end consumer's location
DC	Distribution Centre: The supplier delivers the goods to the retailers' distribution centre. The goods are typically warehoused in the distribution centre prior to distribution
DSD	Direct Store Delivery: The supplier delivers the goods direct to the retailers' retail store location
FG	Factory Gate: The supplier makes the goods available to the retailer at the supplier's loading dock (factory gate). The retailer assumes responsibility for planning, scheduling, collection and transportation of the goods
UNS	Unspecified

Reason for Price Action

Code	Description
NI	The introduction of a new item
PD	Price decrease
PI	A price increase
RE	Range extension
SC	Size change (pack or pallet)
TPR	Temporary price reduction

Price Type Code

Code	Description
BRACKET_TIER_PRICE	
CONTRACT_PRICE	The price associated with an item that has been negotiated or agreed to between Trading Partners exclusive of taxes but inclusive of allowances, charges, and customs duty where applicable. This price would typically be associated with a formal contract between Trading Partners.
INTRODUCTORY_PRICE	An Introductory price.
LIST_PRICE	The price associated with an item exclusive of all allowances, charges and taxes but inclusive of customs duty where applicable. This is normally the price contained on the Supplier price list or Catalogue. (May or may not be customer-specific). Also known as "Base Price", "Catalogue Price", "Gross Price", "Wholesale Price".
TRANSACTION_PRICE	The price associated with an item exclusive of taxes but inclusive of allowances, charges and customs duty where applicable. Also known as "Invoice Price", "Net Item Price", "End Price", "Simple Price".
UNDERBOND_LIST_PRICE	Price associated with an item exclusive of all allowances, charges, taxes and customs duty. (May or may not be customer-specific). This applies to imported items that upon arrival into the country are stored in a Customs-bonded warehouse. The goods are then sold without the customs duty paid; the purchaser pays the customs duty.
UNDERBOND_TRANSACTION_PRICE	
ALLOWANCE	Credit or deduction reflected on an invoice. This can occur either at the item or the invoice level. There are many types of allowances. Some are contractually based, such as backhaul, others are not formalized contracts. Some allowances are offered to the industry, such as payment terms, while others such as promotional allowances are Trading Partner specific.
CHARGE	Debit reflected on an invoice. This can occur either at the item or invoice level. There are many types of charges. Some are contractually based, others are not formalized contracts.
