March 2022

Standards in action across retail

Welcome to the latest edition of GS1 Australia Retail News. A monthly communication for members to keep updated on market trends, events and latest industry initiatives.

RFID Coalition

The RFID Coalition is the premier industry forum where businesses come together to improve visibility and inventory accuracy in the Australian retail marketplace. The recent meeting, headed by Chairperson John Leorke from Puma, featured some great speakers, topics and intriguing conversation.

Stay ahead of the game. Don't miss the next meeting on Wednesday 25 May.

Improve supply chain transparency, dynamically manage risk and save time. Unlock a competitive advantage and streamline your due diligence activity.

Global Sustainability Position Paper

GS1 is engaging in sustainability, having already established global and sector-oriented data models and registries where product, location and entity data can be checked.

Risk management in the end-to-end supply chain

Traceability is becoming particularly important as a new generation of consumers make more ethical decisions on what they choose to eat. Trends show that consumers want to know more than just the nutritional information – they want to know the food's origin and when and how it was grown.

A tale of two labels: S4T in action

Using the Leopard Systems platform, 'A tale of two labels' follows an average pick-up and delivery job using two different transport labels: A typical label and the new Scan4Transport label with standardised 2DBarcode.

Demonstrating how the new S4T transport label can greatly enhance the data available for all involved in the delivery task.

All with the simple scan of the 2DBarcode.
