

A valuable resource for brand owners to confirm business, technical and partnership steps have been met for implementing 2D barcodes in retail.

2D BARCODE Checklist for Brand Owners

Scope Checklist

- ☐ Evaluate business use case opportunities
- ☐ Select a pilot product, line or category
- ☐ Evaluate existing barcodes on-pack
- ☐ Select 2D barcodes based on use cases and requirements
- ☐ Identify additional data needs to be encoded with the GTIN
- ☐ Understand data and GS1 standards to help support your decisions

Technical Checklist

- ☐ Ensure technical capabilities for encoding dynamic data (where applicable)
- ☐ Assess print capabilities and print quality
- ☐ Check for scanning compability with the new 2D barcode
- ☐ Ensure software, hardware and databases are up-to-date

Stakeholder Checklist

- ☐ Align internal stakeholders including supply chain, IT department and marketing
- ☐ Engage with your Solution Providers
- ☐ Collaborate with a retailer to test POS checkout feasibility for the new 2D code
- ☐ Identify common goals and measures with collaboration partners
